Silently Installing the PDF-XChange PDF Viewer.

Our installers all support both 32 and 64 bit versions of MS Windows.
The latest downloads are available from our web site downloads page.
The PDF-XChange install file is downloaded as a 'ZIP' file from which you must extract the installer
itself -: PDFXVwer.exe

Here is an example of the full command line string available :

Most items are optional unless otherwise stated
C:\PDFXVwer.exe /VERYSILENT /NORESTART /COMPONENTS= "PDFViewer,LiveUpdate,Help"
/DIR="C:\Program Files\PDF-XChange 4 Pro\PDF-XChange PDF Viewer\" /PDFV

Broken down into sections - these are the switches and what each does:

MAIN install executable and path **(required)**

e.g: C:\PDFXVwer.exe
The is the full path to the installation executable, note it is the standard install executable - both silent
and non silent installations are available from the single executable.
⬜ /VERYSILENT
Designates that the installation once started should be silent and require no user interaction.
● **/SILENT**
Designates that the install should only request essential information from the user once started
● **/NORESTART**
Once the install is complete - no reboot will occur - but beware - PDF-XChange may require a reboot
before updates will take effect.
● **/DIR= (required)**
the full path to install all required files to, created if not already available.
e.g : */DIR="C:\Program Files\PDF-XChange 4 Pro\"*

Please note that the path details must begin and end with double quote marks (")

● **/Group= (Optional)**
the Windows 'Start Menu' folder in which to locate the Menu options provided when installing PDF-
XChange - this will always be a 'Child' menu option of the default 'Programs Files' menu and this
cannot be changed.
e.g : */GROUP="Tracker Software\PDF-XChange 4 Pro"*

Please note that the menu location path details must begin and end with double quote marks (")

● **/COMPONENTS= (Optional)**
If this switch is specified only those components actually listed will be installed, otherwise all
components are installed. The available components are:
- pdfviewer: installs the PDF-XChange Viewer. (Required)
- LiveUpdate: installs the LiveUpdate feature. (Recommended)
- Help: Installs the Help file. (Recommended)
e.g. : */COMPONENTS="pdfviewer,LiveUpdate,Help"*

Please note that the component list must begin and end with double quote marks (")

● **/NOICONS (Optional)**
